

LABEX BIO-PSY - SUPPORT to SCIENTIFIC ANIMATION

The Bio-Psy Labex intends to support initiatives contributing to increase interactions and visibility for research in neurosciences and psychiatry in relation with Bio-Psy themes of interest.

The Labex will provide financial support to the following events:

- Conferences, workshops, and symposia held at the national or international level, with themes in agreement with the strategic axes developed by Bio-psy

- Preparatory meetings to help creating networks /consortia able to apply to national or international calls (ANR, Horizon 2020, ...)

Scientific meetings organized by existing networks or consortia are excluded from this call.

Applications will be submitted to the Bio-Psy Labex steering Committee and examined in due course, depending on the steering Committee agenda. Applications will necessarily include

- Request presented by a Labex member
- Summary describing the event as planned (location, dates)
- Scientific theme (including modalities of inscription and fees if applicable)
- Interest for the Bio-Psy Labex
- Anticipated audience
- Program or pre-program
- Proposed budget, including other financial support obtained or solicited

Budget requested from the Labex (the contribution will be proportional to the importance of the manifestation for Bio-Psy and will not exceed 5,000 Euros).
